## Brick Dimensions

Paver bricks will acknowledge donor(s) level of giving. The bricks identified as paver bricks may form part of the walkway in the entry way to the CASA building. At the higher levels of giving, the bricks will be placed on the center post in front of the entry way to the building. The exact location of the bricks will be assessed after the campaign is completed and the number of bricks known. A major objective will be to locate the bricks for the best aesthetic view.

If you pledge at a brick level, please indicate what you would like engraved into the brick.
